PROFILE

Enthusiastic and results-driven aspiring **Data Scientist** with a solid foundation in **data analysis**, **machine learning**, and **deep learning**. Experienced in working with **real-time datasets**, developing predictive models, and generating actionable insights using **Python**, **SQL**, and **visualization** tools. Committed to continuous learning and looking forward to contributing to impactful data-driven projects in a growth-oriented organization.

SKILLS

Python | Data Visualization | Machine Learning | Deep Learning | Statistics | Power BI | SQL | Data Structure | CNN |
Hugging Face | Google Analytics | AWS Cloud | NLP | Computer Vision

PROJECTS

Harvard Artifacts Collection: ETL & Database Analytics

Key Skills: API Integration, JSON Parsing, SQL, Data Transformation

- Retrieved large-scale artifact data using Harvard Art **Museum API**.
- Transformed nested **JSON** data into structured **relational tables**.
- Implemented analytical **SQL queries** for artifact classification and metadata insights.
- Developed a simple user interface for dynamic data querying.

Choco Crunch Analytics: API & SQL Data Pipeline

Key Skills: Python, REST API, SQL, ETL, Pandas

- Extracted **12,000+ product records** from Open Food Facts API using pagination.
- Designed relational database schema with proper primary–foreign key relationships.
- Executed complex SQL queries **including joins and aggregations** to derive insights.
- Built interactive visualizations to analyse nutritional patterns.

Eco Type: Forest Cover Classification

Key Skills: Python, Random Forest, XG Boost, Feature Engineering, Stream-lit

- Processed **145K+ geospatial records** to predict forest cover across 7 classes.
- Addressed class imbalance to improve model reliability.
- Compared multiple classification models and optimized performance using hyperparameter tuning.
- Deployed a Stream-lit-based prediction system.

EDUCATION

IIT-M Advanced Programming Professional & Master Data Science

July 2025 – Sept 2025 | Chennai

IIT-M GUVI

Bachelor of Technology with Biotechnology

Jun 2021 – May 2025 | Chennai

VELTECH RANGARAJAN Dr. SAGUNTHALA R&D INSTITUTE OF SCIENCE AND TECHNOLOGY
